THE FOUR ESSENTIALS

Your Totem **Non-Negotiables**

Nail these first, and **your Totem will do the rest.**

THE FOUR ESSENTIALS

To **find your friends**,
your Totem needs **these four things**.

BATTERY CHARGED (DUH 🤔)

Your Totem shows **battery level on start up**.

A FRIEND TO FIND

Bond your Totem with a friend's Totem so it has
someone to guide you to.

OPEN SKY

Your Totem needs to connect to satellites.

Go outside & wait for the swirling light to stop.

SPIN BEFORE NAVIGATING

To help your Totem know which direction it's
facing, **spin until you see the white flash**.

KEEP THE PARTY GOING

Stay **powered**. Stay **connected**.

Because dead batteries don't find friends...

HOW TO **CHECK BATTERY LEVEL**

- Turn Totem on by **clicking the Power Button once**.
- Battery level is shown as a ring around the Totem.

HOW TO KNOW YOUR TOTEM NEEDS A CHARGE

- Touch Crystal slowly pulses red.
- Touch Crystal will not respond.

HOW TO CHARGE YOUR TOTEM

- Fully charges in ~45 minutes using standard USB-C.
- Green light appears when fully charged.

HOW TO **MAXIMIZE** **BATTERY LIFE**

- Click the Power Button once to enter "Eco Mode".
- Touch **Crystal dims**. All other lights disappear.

PAIR WITH YOUR PEOPLE

Bond 2+ Totems in seconds.

Bond once. Find each other until the end of time. 😊

HOW TO **BOND WITH** **YOUR PEOPLE**

Get everyone together

- Hold or place all Totems side-by-side **horizontally**.

Pick a leader

- Choose **one Totem** to be the Primary Totem.

Begin Bonding

- Touch & hold the Primary Totem's Touch Crystal for **8 seconds** until the ring begins flashing through colors.

Add the rest

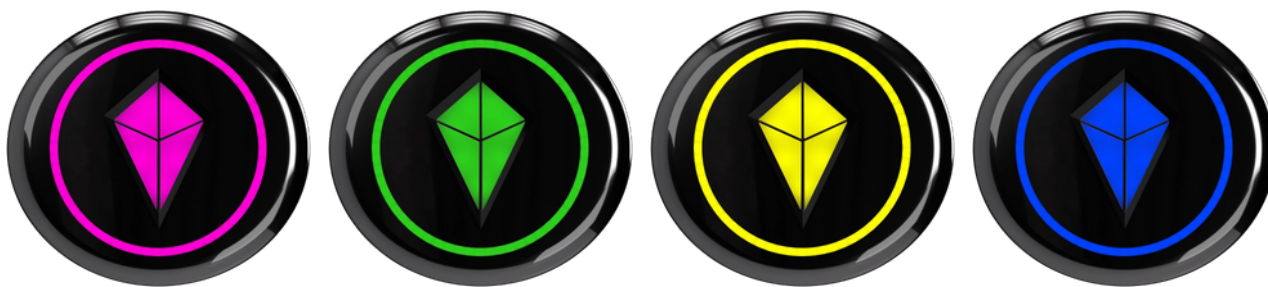

- **Repeat** for each remaining Totem until you see the same flashing colors.

Lock it in!

- Touch & hold the Primary Totem's Touch Crystal one final time to **finish Bonding**.

SUCCESS!

HERE'S HOW YOU'LL KNOW >>

- ✓ Each Touch Crystal locks into place.
- ✓ Each Touch Crystal displays its own unique color.

- ✓ All Bond lights move to the Touch Crystal.

BOND UNSUCCESSFUL?

1. **Turn off all Totems** and restart the Bonding process.
2. **Bond Totems individually.**

HOW TO BOND TOTEMS INDIVIDUALLY

1. Hold two Totems together.
2. Press & hold both Touch Crystals simultaneously.
3. Blue ring will fill, show Bond color, and move to Crystal.

OKAY, BUT WHO'S WHO?

Your Totem changes depending on how you're holding it.

WHEN VERTICAL...

- ✓ The Touch Crystal shows **your color**.
- ✓ Your friends will follow this color to find you.

WHEN HORIZONTAL...

- ✓ The colors shown belong to **your bonded friends**.
- ✓ This is called 'Compass Mode'.

FIND YOUR LOCATION

Your Totem needs to **know where it is.**

If you can't see the sky, **neither can your Totem.**

HOW YOUR TOTEM KNOWS WHERE IT IS

Your Totem uses satellites to figure out its location.

- Go outside with a **clear view of the sky**.
- Wait until the **swirling light stops**.

USUALLY TAKES **LESS THAN 5 MINUTES**.
GIVE IT UP TO 15.

FIND YOUR PEOPLE

Let your Totem **lead the way.**

No more "Wait... where are you?"

LET'S START NAVIGATING

The Totem will let you know when it's ready.

- Hold your Totem **horizontally**.
- Spin until you see the **bright, white flash**.

BOOM. **YOU'RE CALIBRATED.**

YOU'RE READY
TO FOLLOW THE PRETTY LIGHT!

(seriously, that's it)

HOW TO UNDERSTAND THE PRETTY LIGHTS

Your Totem is always talking to you.
Here's what it's saying.

Active Communication

PULSING LIGHT

Communication Lost

WHEN YOU SEE A PULSING LIGHT...
FOLLOW AT YOUR OWN RISK

Your friend's Totem may be
off, dead, or out of range.

HOT OR COLD?

The light tells you how close you are.

LIGHT SHRINKS
